YACHTS & ADVANCED COMPOSITE

MAGIC YACHTS

MAGIC YACHTS

Location : Our Naval Shipyard is located inside the Basin of BIZERTE (Tunisia) in the Economic Park of Bizerte, Free Zone Customs which offers optimal security.

This ultra-modern Naval Shipyard from an Italian shipyard has more than 80 years of experience in the construction, repair and conversion of ships.

We are particularly proud of the passion we put into our work, that which drives us always with quality and reliability of the staff who put our boats to the limit of perfection.

We work in all the different areas that affect the shipbuilding production: Yachts, Military vessels, Work boats, Fishing boats, Civilians vessels, the Refit and Engineering.

To give a few examples, the Shipyard has gained recognized experience for boat manufacturing for offshore fishing, the Fire Stars, military Patrol and Interceptors for the Customs Service and the Coast Guard or the Navy.

The facilities of the site meet the most advanced technological requirements.

- 30000 sqm Of uncovered area
- 13000 sqm Of covered area
- 1 « travel-lift » of 260 tons
- 1 mobile transportationde 250 tons
- 1 Transport trolley of 90 tons
- 2 stove of (35mx 10m) which reached heating temperature 120 degrés (advanced composite)

We are therefore in a position to respond to all requests for partnership including the transfer of technology.

REV : PRELIMINARY

MAGIC YACHTS
AKHIR PROGRAM

MAGIC YACHTS

Preliminary
Technical Specification

AKHIR 90

Main characteristics:

Naval Architecture	Cantieri di Pisa
Exterior design	Carlo Galeazzi
Interior design	Carlo Galeazzi
Classification	Rina + A1 Yachting service
Hull material	GRP (100% infusion epoxy)
Superstructure material	GRP (100% infusion epoxy)
Shipyard	Magic Yachts

Technical data:

Lenght over all	27,55 mt (90 Ft)
Beam over all	6,51 mt (21,3 Ft)
Draft extrême (50% load)	2,14 mt (7 Ft)
Maximum speed	26,00 Kt
Range at 12 knots	800 nm
Fuel capacity	14.000 lt (3,703 US Gal)
Fresh water	2.200 lt (582 US Gal)
Main engines	2xMTU 12V 2000 M93
Maximum power	2x2000 hp (2x1.340 kw) at 2.450 rpm
Generators	2xKholer 27 Kw
Bowthuster	Hydrosystems HBT 40
Stabilizer at anchor	optional
Water maker	1x4.320 lt per day
Air conditioning	Max cooling power 120.000 BTU
Tender	1x optional tender 4,2 mt (13,7 Ft)
Wave runner	1x optional Jet-ski

AKHIR 118

Main characteristics:

Naval Architecture	Cantieri di Pisa
Exterior design	Carlo Galeazzi
Interior design	Cantieri di Pisa
Classification	ABS A1 Yachting service AMS
Hull material	GRP
Superstructure material	GRP
Shipyard	Magic Yachts

Technical data:

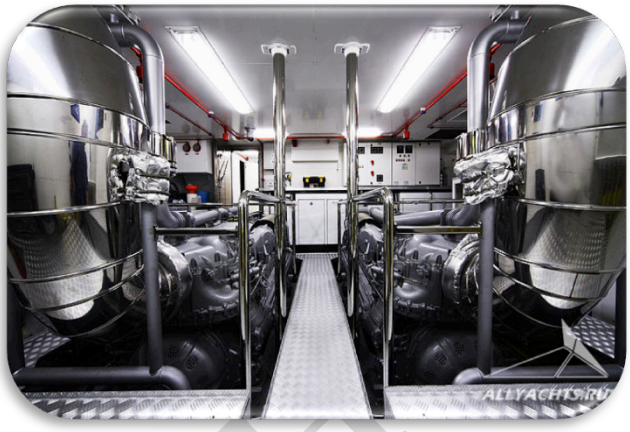

Lenght over all	36,13 mt (118 Ft)
Beam over all	7,51 mt (24,6 Ft)
Draft extrême (50% load)	2,47 mt (7,5 Ft)
Maximum speed	27,00 Kt
Range at 12 knots	2120 nm
Fuel capacity	25.000 lt (6,613 US Gal)
Fresh water	3.700 lt (977,4 US Gal)
Main engines	2xMTU 16V 2000 M93
Maximum power	2x2400 hp (2x1.790 kw) at 2.450 rpm
Generators	2xKholer 55 Kw
Bowthuster	Hydrosystems 44 Kw 450 nm
Stabilizer at anchor	Optional
Water maker	1x4.320 lt per day
Air conditioning	Max cooling power 360.000 BTU
Tender	1x optional tender 4,2 mt (13,7 Ft)
Wave runner	1x optional Jet-ski
